Managing Director

A woman with blonde hair is smiling and looking towards the camera. She is wearing a dark blue top. In the background, there is a computer monitor displaying a website, a desk phone, and some office supplies. The scene is set in a modern office environment.

## Piecing together your success

We at GUDECO are here to help you to be successful. We offer top quality performance and service from qualified, sector-specific consultation on sales to comprehensive quality assurance to modern IT infrastructure.

Let us show you **how.**

## What GUDECO can do for you

### Sales and Marketing

Our field and internal sales teams work hand in hand. From consultations at your site to instant telephone enquiries to tailored individual quotes, you can rely on GUDECO. Just get in touch.

### Logistics

Among other things, our logistics teams are responsible for the flawless bar-code labelling of all products. Also, this is where we manage and support EDI connection and logistics.

### Quality Assurance

We place great importance on quality assurance here at GUDECO. Our QA staff manages internal quality and environmental audits, ensure customer satisfaction, introduce corrective and preventive actions and handle any complaints.

### Product Management

To us, product marketing means keeping you in the loop and combining products and services to make sure they meet your requirements. This team also provides technical product support and preparation for trade fairs.

### Procurement

Our procurement team takes care of materials planning and purchasing. This means we always have a wide range of products available and can offer short delivery times.

### IT Infrastructure

GUDECO's extensive IT infrastructure allows us to give you qualified information at all times, know what stock we have and be able to respond to enquiries quickly. Our team is responsible for system administration, database management and in-house system maintenance.

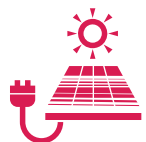

# Expertise as a standard.

## Our specialists

It is always good to talk to experts who know the peculiarities of that particular field. At GUDECO we are familiar not only with the latest products from reliable manufacturers, but can also offer you the benefit of our expertise in that sector.

## Your goals. Our know-how.

The demands on the make-up and functionality of components are constantly increasing. Sector-specific technical solutions are increasingly in demand. GUDECO works to ensure we can meet these demands and also give you comprehensive support from sector specialists.

### Solar Industry

Durable, wind and weather-resistant components are what we recommend for the solar industry. This way, you can make sure your installations are reliable in every situation even under strong UV influences.

### Automotive

If you are developing vehicles and their components, you have always got your focus on the high standards of the vehicle sector. By choosing us, you are choosing quality and cost effectiveness.

### Telecommunications

The telecoms sector is an important market currently undergoing rapid growth. We can offer you the right components for producing WLAN routers or setting up mobile base stations.

### Medical Technology

Precision and safety are the buzzwords in this sector. We are happy to recommend components which can reliably live up to these demands.

### Agriculture

Modern agriculture has relied on sophisticated agricultural technology for years. GUDECO can supply you with the necessary electronic components from top manufacturers.

### Industry

To produce high-value goods economically, the technical infrastructure has to be perfect and match your production conditions.

# Service

tailored to your needs.

## What can we do to help?

GUDECO works in partnership with leading manufacturers in the electronics sector – best known as specialist for passive and electromechanical components, equipment, connection technology, component preparation and assembly services.

ELEKTRONIK

## You benefit from:

### 50 Years of Experience

As our customer, you benefit from 50 years of experience in this dynamic market.

### Even small Shipments

The constant development of our internal and field sales teams allows us to guarantee excellent support and service.

Factory-assisted sampling of your new products at your site is as much a part of our service as delivering small shipments, including SMDs.

### Working in Partnership

Working with GUDECO you will see how seriously we take our job, always seeking to achieve what you maybe thought impossible. Speed, quality, product knowledge, flexibility and service define how we work for you.

### 24-h Service

We see it as our job to help you bring the specific demands of your product onto the global market, to deliver your components, on schedule and ready for assembly, within 24 hours.

### Personal Support

Although the technical processes for making electronic components are getting quicker and quicker, at GUDECO we see this as time gained to help our customers with our qualified, personal support.

Offering alternatives in terms of cost and delivery times is an example for real customer benefit. From our own well-stocked warehouses, where we take care of customer-specific stock storage as requested, we provide quality products, quick, reliable, and at competitive prices. GUDECO stands for personal service.

# Quality:

at the forefront of all we do.

## GUDECO Service Guarantees.

Business relations built on trust, agreements we meet, quality standards every GUDECO employee achieves, every day.
