WG: INFORMATIVE NOTE COVID-19

Betreff: INFORMATIVE NOTE COVID-19

Dear All,

Hope you are doing well.

I would like to confirm that ACP will be open production lines next Monday April 13th. As you know, the Spanish government limited until April 12th the industrial activities to only those considered essential for the people in order to minimize the personal interrelation and the contagion. We all hope that these measures will be effective and the virus can be brought under control.

We are facing difficult moments everywhere. Keep safe, health is the top priority now. Take good care of yourselves and those around you.

BR,
Amelia

Kind regards and have a nice day,

Amelia Ortiz
