## **Statement about the impact of the Coronavirus on our supply chain**

We, Almit GmbH and Nihon Almit Co. Ltd. would like to announce that the Coronavirus situation has no negative impact on our supply chain.

Due to the situation that the airports or seaports in China have been closed or blocked, it is difficult to deliver our products to China from Japan or Germany. Also deliveries inside China are not easy because of the additional strict controls and movement restrictions. Please remind this point if your facilities are in China.

We will announce once we have any further new situation in the future. Thanks for your understanding.

Sincerely yours,

Mr. Kenji Mukai  
Director Sales Department  
NIHON ALMIT CO., LTD.
