Hi Christopher,

Thank you for your email.

NIC does have production facilities in China, but not in the provinces currently affected by lock down or restricted travel (Wuhan, Huanggang, Ezhou, Chibi and Zhiyang). We have some facilities that have continued with limited production through Chinese New Year but most of our factories resumed production on 10th Feb.

The situation is still evolving and we hope to get further information as our factories resume production including the effect on logistical services.

We will continue to monitor the situation and do everything we can to deliver parts as needed to meet our customers demand.

Kind regards
Nicola
